

Good result for Ginetta on BTRDA season opener

Marcel Freling and Karen Robinson were relieved to see the finish of the recent Get Connected Wyedean Forest Rally when they brought home the unique and exciting Ginetta G20 GTR rally car in a very impressive 6th in class on this very tricky and difficult rally.

After the area had been exposed to heavy snow fall in the days before the rally the competitors had to face up to 6 inches of snow on some of the stages and with the Ginettas' development very much still in its infancy Marcel knew that he was in for a tricky event.

8th quickest in class through the opening stage showed how cautious the pair were being but with the conditions proving extremely difficult this was more about finishing rather than setting top times and with the Ginetta running faultlessly throughout the day everyone involved in the project was very pleased.

"It is still early days for the Ginetta G20 GTR Rally Car and finishing on only its second ever event is extremely promising!" said Marcel. "The car drew a lot of attention and all the feedback is very positive."

With its first finish already under its belt the Ginetta will be refettled ahead of its next outing which is expected to be the Sunseeker Rally with Tony Jardine at the wheel. Marcel will then resume testing duties on the Malcolm Wilson Rally a week later.

Everyone involved in the Ginetta project would like to extend their thoughts to the family and friends of David Williamson, who was tragically killed on Saturday's rally.
